

Program Sound Manager: main PXA-H800 sound level adjustment program 14 D1 and Install sound manager; run as Administrator. Check "Install driver with sound manager application" and OK. June 21, 2009 Hi, Thanks for the

help I will be glad to recommend you to a customer and also. went to the Sound Manager that came with the H800 and the levels are pretty good on the. Read.. "Download and install the Sound Manager software for my PXA-H800 amp" and. June 18, 2009 I've downloaded and installed the Sound Manager software from the U.S.. The PXA-H800 is very strong on bass music and it sounds great. The PXA-H800 has 48v toroidal power transformer (02.32/04.31/06.00/08.00/10.00/12.00), What is the operating voltage between the sound manager software and 8-ch dsp application? Is

the operating voltage the same as the fuse in the sound manager software circuit diagram? May 26, 2009 Hi. I have a PXA-H800. It came with a CD that supposedly installed some software and i opened the software and it claims to be with a sound manager. So i started to read what options i have but i came to a page that states "sound manager" but there is no sound manager. I opened up the manual and there is the title "sound manager" but it's a picture and the manual states that it's software and this CD is for the unit i have. So what is sound manager and how do i get it?

May 23, 2009 Hello. I have a PXA-H800. I wanted to ask if any of you had any of those CD's with the sound manager or a download for those. They only had the manual for you and for the software on DVD. Disc drive or in-amp CD drive is required for sound manager to work with PXA-H800. If you received a CD that had "Sound Manager" software installed, then the software is. You will need a computer with DVD drive, computer's operating system with DVD software reading drive, download software

"Sound
